

Test Yourself Questions – Mini-Tests for TOGAF 9.1

Test Yourself Questions – Mini-Test 1: Basic Concepts (5 questions)

Q1: TOGAF defines an enterprise as any collection of organizations that has...

- A. ...a common management structure
- B. ...a common set of goals
- C. ...a common location
- D. ...a common set of customers
- E. ...a common set of partners

Q2: Which of the following is NOT true of an architecture framework?

- A. It should define the enterprise in terms of building blocks.
- B. It should be a foundational structure for developing a broad range of different architectures.
- C. It should describe a method for designing a target state of the enterprise.
- D. It should enforce the use of particular development tools.
- E. It should provide a common vocabulary.

Q3: Which of the following business benefits would be most likely to result from use of enterprise architecture?

- A. Replacement of in house systems with bought-in solutions
- B. Reduction of financial risk
- C. Strictly defined limits to future development.
- D. Reduced complexity in IT
- E. Development of homogenous systems

Q4: Which of the following is NOT a major component of TOGAF?

- A. The Architecture Process Method
- B. The Architecture Content Framework
- C. The Enterprise Continuum
- D. The Architecture Capability Framework
- E. The Architecture Development Method

Q5: Which of the following are the four Architecture Types that TOGAF deals with?

- A. Business, Data, Solution, Technology
- B. Business, Technology, Strategy, Application
- C. Data, Application, Technology, Strategy
- D. Business, Technology, Data, Solution
- E. Business, Data, Application, Technology

Test Yourself Questions – Mini-Tests for TOGAF 9.1

Test Yourself Questions Mini-Test 2: Core Concepts (5 questions)

Q1: Which of the following is NOT a Phase of the ADM cycle

- A. Migration Planning
- B. Data Architecture
- C. Business Architecture
- D. Preliminary
- E. Opportunities and Solutions

Q2: Which of the following is defined by TOGAF as a Deliverable ... (choose one answer)

- A. ... is an architectural work product that describes an aspect of the architecture.
- B. ... is a work product that is contractually specified and formally agreed
- C. ... can be a catalog, a matrix or a diagram.
- D. ... represents a component of business, IT or architectural capability.

Q3: Which of the following is “a statement used to identify the difference between Baseline and Target Architecture” ?

- A. Vision
- B. Capability
- C. Gap
- D. Objective
- E. Requirement

Q4: Which statement is NOT true of an application?

- A. An application supports business functions and services.
- B. An application is a deployed and operational IT system.
- C. A payroll is an example of an application.
- D. An application includes the technology components that support it.
- E. Applications are supported by multiple technology components.

Q5: In which aspect of the Architecture Capability Framework is Roles and Responsibilities ?

- A. Governance Bodies.
- B. Skilled Resource Pool
- C. Project/Profile Governance
- D. Business Operations
- E. Architecture Repository

Test Yourself Questions – Mini-Tests for TOGAF 9.1

Test Yourself Questions Mini-Test 3: Enterprise Continuum (5 questions)

Q1: The Standards Information Base, The Governance Log, and The Reference Library are all main parts of ...

- A. ...The Architecture Capability
- B. ...The Architecture Repository
- C. ...The Architecture Guidelines
- D. ...The Architecture Landscape
- E. ...The Architecture Metamodel

Q2: The Relationship between the Architecture Continuum and the Solutions Continuum is one of ...

- A. ...governance, direction and skills
- B. ...guidance, development and support
- C. ...governance, definition and support
- D. ...governance, definition and skills
- E. ...guidance, direction and support

Q3: Which part of the Enterprise Continuum can provide a library of re-usable solutions?

- A. The Solutions Continuum
- B. The Systems Continuum
- C. The Standards Information Base
- D. The Support Continuum
- E. The Solutions Library

Q4: What is the relationship between the Architecture Repository and the Enterprise Continuum?

- A. The Architecture Repository is the same as the Enterprise Continuum.
- B. The Architecture Repository is a model for a physical instance of the Enterprise Continuum.
- C. The Enterprise Continuum is a model for a physical instance of the Architecture Repository.
- D. The Architecture Repository is a subset of the Enterprise Continuum.
- E. There is no relationship between the Architecture Repository and the Enterprise Continuum.

Q5: What are the three levels of granularity of the Architecture Landscape?

- A. Guidelines, Templates, Patterns
- B. Parameters, Structures, Processes
- C. Capability, Function, Process
- D. Strategic, Segment, Capability
- E. Business, Data, Applications

Test Yourself Questions – Mini-Tests for TOGAF 9.1

Test Yourself Questions Mini-Test 4: Supporting Techniques (5 questions)

Q1: The stages 'environment', 'objectives', 'human actors', and 'refine' are part of ...

- A. ... Gap Analysis
- B. ...Business Scenario
- C. ...Capability Planning
- D. ...Technical Integration
- E. ...Risk Management

Q2: The Rationale Section of an Architecture Principle should...

- A. ...represent the essence of the rule.
- B. ...state the impact on the business.
- C. ...succinctly communicate the fundamental rule.
- D. ...highlight the business benefits.

Q3: In which phase would you NOT use interoperability requirements?

- A. Phase A
- B. Phase B
- C. Phase D
- D. Phase E
- E. Phase G

Q4: 'Eliminated Services' would be highlighted using which technique?

- A. Risk Management
- B. Gap Analysis
- C. Business Transformation Readiness Assessment
- D. Business Scenario

Q5: Which of the following is NOT a recommended process within Risk Management?

- A. Risk transformation
- B. Risk identification
- C. Risk mitigation
- D. Risk monitoring
- E. Risk classification

Test Yourself Questions – Mini-Tests for TOGAF 9.1

Test Yourself Questions Mini-Test 5: ADM Phases (10 questions)

Q1: In which phase would you perform initial Implementation and Migration Planning ?

- A. Preliminary
- B. Phase A
- C. Phase B
- D. Phase D
- E. Phase E

Q2: Which of the following would be carried out in Phase G?

- A. Identify major implementation projects.
- B. Use business modelling techniques.
- C. Monitor implementation work.
- D. Define the relationships between Management Frameworks.
- E. Consider what Technical Architecture resources are available in the Architecture Repository.

Q3: “Ensure high-level management commitment” is a key activity of which phase?

- A. Preliminary
- B. Phase A
- C. Phase B
- D. Phase G
- E. Phase H

Q4: Which one of the following is *NOT* a recommended classification of change in the Change Management Process?

- A. Simplification change
- B. Fundamental change
- C. Re-architecting change
- D. Incremental change

Q5: Complete the sentence. “A knowledge of the _____ Architecture is a pre-requisite for architecture work in any other domain.”.

- A. Application
- B. Business
- C. Technology
- D. Data

Q6: Phase A starts with

- A. A Request for Architecture Contract
- B. A Statement of Architecture Work
- C. A Request for Architecture Requirements
- D. A Statement of Architecture Requirements
- E. A Request for Architecture Work

Test Yourself Questions – Mini-Tests for TOGAF 9.1

Q7: Which Phase is NOT part of an iteration of the ADM Cycle?

- A. Phase A
- B. Phase B
- C. Phase C
- D. Preliminary
- E. Phase E

Q8: In which Phase would the III-RM be a relevant resource?

- A. Phase A
- B. Phase B
- C. Phase C
- D. Phase D
- E. Phase E

Q9: In which Phase is Stakeholder Analysis performed?

- A. Phase A
- B. Phase B
- C. Phase C
- D. Phase D
- E. Phase E

Q10: “Finalize the Architecture Roadmap and the supporting Implementation and Migration Plan” is an objective of which phase?

- A. Phase E
- B. Phase F
- C. Phase G
- D. Phase H
