Question:	D. Phase G [D]

In which Phase of the ADM, the risk identification and mitigation assessment

worksheets are maintained as governance artifacts and are kept up-to-date?

Question:

What is the (TRF) Technical Reference Model?

D. It describes a fundamental architecture upon which other, more specific, architectures can be based [D]

Question:

Which of the following statement is correct in the context of ADM iteration?

D. Yes, you can cycle around ADM, iterate across specific phases or cycle through some of the phases [D]

Question:

What is a Standards Information Base (SIB) in context of TOGAF?

A. It holds guidelines, templates, patterns [A]

Question:

What Architecture Building Blocks does?

A. They define how the functionality will be realized through products and components [A]

Question:

In which phase of the ADM, the nature and security considerations of information and service exchanges determined?

D. Phase C [D]

Question:

What phase of the ADM does the cost/benefit analysis?

D. Phase E [D]

Question:

B. Migration Planning [B]

Which of the following is Phase F?

Question:

D. It is a physical repository of all architecture assets models, patterns, architecture descriptions, and other artifacts produced during application of the ADM [D]

Which of the following statements is not correct about Enterprise Continuum?

Question:

C. Architecture Patterns [C]

Which of the following is not an ADM Guideline or Technique?

Question:

C. Improved software development productivity [C]

Which of these are not the benefits of Architecture Governance?

Question:

E. Business Transformation Readiness Assessment [E]

Which technique can be used to discover the need for a Capability?

Question:

B. The terms “concern” and “requirement” are synonymous [B]

Which of the following is not a correct statement about the stakeholder concern?

Question:

D. Based on the implementation projects selected in phase E, Transition Architectures is arrived at in phase F [D]

In context of ADM, how is the Transition Architecture formulated?

Question:

D. A Stakeholder analysis and map [D]

Which of the following is not a part of Architecture Repository?

Question:

B. The principles governing its design and evolution IT system [B]

Which of the following is not comes under the Technology Architecture documentation?

Question:

C. Phase B [C]

Which Phase of the ADM relates to agreement reached on the architecture

method to be adopted?

Question:

Which of the following statements is not correct in the context of TOGAF?

B. A Foundation Architecture supports the complete enterprise operating environment [B]

Question:

Which of these is not a recommended step to create the required views for a particular architecture?

D. Select appropriate viewpoints [D]

Question:

In which ADM phases, does Architecture Governance performed and operated?

B. It is established in Preliminary Phase, refined in Phase A and operated on Phase F to H [B]

Question:

Which of these is not in the scope of governance of Architecture Contract?

C. Facilitate re-usability [C]

Question:

Which of the following is not a part of Architecture Governance phase?

E. Developing practices that ensure accountability to a clearly identified stakeholder community [E]

Question:

Which of the following is not the source of a business domain gap in context of TOGAF?

D. Information gaps [D]

Question:

Which of the following item is not a part of Architecture Repository?

E. Compliance Log [E]

Question:

Which of the following statements is correct in the context of ADM and Architecture Repository relationship?

A. At relevant places throughout the ADM, there are reminders to consider which architecture assets from the Architecture Repository the architect should use [A]

Question:

D. TOGAF recognizes the need to manage the content of the Enterprise Continuum using tools but does not provide any

Which of the following statements is not correct in the context of TOGAF?

guidance on tool selection [D]

Question:

E. To take advantage of advances in technology [E]

Which of the following is not the purpose of Architecture Compliance Review exercise?

Question:

D. Architecture Change Management [D]

Which of the following is H?

Question:

A. Compliance, Business Control , Monitoring and Reporting [A]

The Architecture Governance Framework contain?

Question:

B. Management utilities [B]

Which of these is not a part of III-RM (Integrated Information Infrastructure Reference Model) taxonomy?

Question:

C. Architecture Governance [C]

Which of the following is not a part of the TOGAF document (official TOGAF documentation)?

Question:

C. Business Architecture looks at the Enterprise in abstraction and does not look at the relationship between people and process [C]

Which of the following statements is not correct in context of the Business Architecture?

Question:

C. Phase B [C]

Which Phase of the ADM define and initiate the Business Scenarios?

Question:

E. It is first carried out in Phase A and updated in Phase B to E [E]

In which phase of the ADM, the Capability Assessment is carried out?

Question:

D. Building Block, Artifact and Deliverable [D]

Which are the three main categories of architectural work product does Architecture Content Framework specify?
Question:

C. It will speed up and simplify architecture development [C]

Which of the following is not a reason to use an Enterprise Architecture Framework in the context of TOGAF?
Question:

C. The people and computing components who execute the scenario [C]

Which of the following is not described by a Business Scenario in TOGAF?

Question:

A. It considers implementation and usage, and evolves to exploit technology and standards [A]

Which of these is not the characteristic of a building block?

Question:

C. The ADM is one of many corporate processes that make up the corporate governance model for an enterprise [C]

Which of these is not the reason for wanting to tailor the ADM to the circumstances of an individual enterprise?

Questions:

A. The fundamental organization of a system, embodied in its components, their relationships to each other and the environment, and the principles governing its design and evolution [A]

What is the definition of Architecture in the context of TOGAF?
